

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAND REVENUE.

By Government Notice of 31st March, 1849, it was directed that each farm granted under the conditions of the Proclamations of 10th February, 1848, and of 16th February, 1849, was chargeable from the date of approval of the inspection, with a provisional annual quit-rent of £3.

By Proclamation of 7th July, 1856, it was proclaimed, that the unappropriated country lands of the Crown would be disposed of, on the conditions thereafter set forth, in farms of from 50 to 3,000 acres in extent, according to the nature of the soil and the locality, on payment of an annual quit-rent of not less than £6 on every farm so granted.

By Proclamation of 29th April, 1857, the regulations set forth in said Proclamation of 7th July, 1856, were annulled, and others substituted, viz. :—

CLASS 1.—Unappropriated Crown Lands in the Counties of Klip River, Weenen, Umvoti, and Pietermaritzburg (exclusive of Ward No. 6 of the last County), and also in that portion of the Division now called Upper Umkomanzi, not being nearer than forty miles from the sea-shore, would be granted in farms not exceeding an area of 3,000 acres, on condition of occupation, and at a perpetual annual quit-rent of one farthing per acre.

CLASS 2.—Unappropriated Crown Lands in the Counties of Victoria and Durban, and in the Division now called Lower Umkomanzi, as also in that portion of the Division now called Upper Umkomanzi, being within forty miles of the sea-shore, would be granted on condition of occupation, and as follows :—

- 1st. Unappropriated lands, situated within 20 miles of the sea-shore, and 30 miles of the Port of Durban, would be granted in farms not exceeding an area of 300 acres, at a perpetual annual quit-rent of twopence half-penny per acre.
- 2nd. Unappropriated lands, situated beyond 30 miles of the Port of Durban, and within 20 miles of the sea-shore, would be granted in farms not exceeding an area of 600 acres, at a perpetual annual quit-rent of one penny farthing per acre.
- 3rd. All other unappropriated lands, included in Class 2, would be granted in farms not exceeding an area of 1,000 acres, at a perpetual annual quit-rent of three farthings per acre; but on all farms granted as above, and not occupied, there shall be payable annually, during non-occupation, a fine per acre of four times the amount of quit-rent per acre, and in addition to the said quit-rent.

Finally, by Proclamation of 2nd July, 1858, said Proclamation of 29th April, 1857, was revoked, and proclaimed that henceforth the Crown Lands of this Colony will be disposed of under the following conditions :—

1. The unappropriated Crown Lands in this Colony will be sold in freehold, and by public auction only.
2. Unless it is otherwise notified, the upset price for such sales will be four shillings (4s.) per acre, but the Governor for the time being will have the power to fix such higher upset price as the locality, or other circumstances, may render expedient of which due notice will always be publicly given.
3. Persons desirous of becoming purchasers will apply in writing, to the Colonial Secretary, respecting the land they wish to have put up for sale; stating in what division it is situated, and, as far as practicable, its position, boundaries, and probable extent.

Taxes, &c.

LAND REVENUE—(continued.)

These applications, after being recorded in the Colonial Office, will be transmitted to the Surveyor-General, who, if he sees no objection to the land being disposed of, will call upon the applicant to deposit with him the probable expense of the survey; which expense will be borne by the eventual purchaser.

4. Should the applicant not become the purchaser, the amount deposited by him will be refunded when paid by the eventual purchaser; but should no sale take place, no refund can be made.
5. Lands offered for sale will be advertised for one month in the *Government Gazette*, at the expiration of which time they will be sold by public auction.
6. Ten per cent. of the purchase-money, together with the surveying expenses, must be paid on the day of sale, and the balance within one calendar month thereafter; in default of which the ten per cent. and surveying expenses so paid will be forfeited to the Colonial Treasury.

(Extract from Royal Charter, dated 15th July, 1856.)

§ 11. Every man, except as hereinafter excepted, above the age of twenty-one years, who possesses any immovable property to the value of £50, or who rents any such property of the yearly value of £10, within any Electoral District, and who is duly registered in manner hereinafter mentioned, shall be entitled to vote at the election of a member for such district. When any such property as aforesaid is occupied by more persons than one, as proprietors or renters, each of such occupants, being duly registered, shall be entitled to vote in respect of such property, provided the value, or, as the case may be, the rent thereof, be such as would entitle each of such joint occupants to a vote if equally divided among them.

§ 12. Aliens, not having been naturalised by some act of the Imperial Parliament, or of the Legislature of Natal, and persons who shall have been convicted of any treason, felony, or infamous offence, and shall not have received a free pardon, shall not be qualified to vote at any such election.

§ 13. No person shall be capable of being elected Member of the Legislative Council unless he shall be a duly qualified and registered elector of some electoral district in the colony, nor unless he shall have been invited to become a candidate for such election by at least ten electors of the county or borough which it is proposed he shall represent; nor unless such requisition shall have been transmitted to the Resident Magistrate of the county or borough, with a notification of the said candidate's acceptance thereof, at least fourteen days before such election is appointed to take place.

(Extract from Law 11, 1865, disqualifying certain Natives from exercising Electoral Franchise.)

1. Every male native resident, in this colony, or having the necessary property qualification therein, whether subject to the operation of the native laws, customs, and usages in force in this colony, or exempted therefrom, save as in this law is provided, shall be disqualified from becoming a duly registered elector, and shall not be entitled to vote at the election of a Member of the Legislative Council for any electoral district of the Colony of Natal.

2. Any male native inhabitant of this colony who shall show to the satisfaction of the Lieutenant Governor that he has been resident in this colony for a period of twelve years, or that he has been occasionally resident therein equivalent to a twelve years' residence, and who shall possess the requisite property qualification, and shall have been exempted [see Law 28, 1865] from the operation of native law for a period of seven years, and who shall produce to the Lieutenant Governor a certificate signed by three duly qualified electors of European origin as near as may be to the form in Schedule A appended to this Law, and endorsed by a Justice of the Peace or Resident Magistrate of the district in which each native resides, a statement to the effect that the Justice or Resident Magistrate endorsing said certificate has no reason to doubt the truth of said

certificate, and that the persons signing it are credible persons, shall be entitled to petition the Lieutenant Governor of Natal for a certificate to entitle him to be registered as a duly qualified elector for that electoral division in the colony in which each native may possess the requisite property qualification.

3. The Lieutenant Governor may direct that the application of any such native be published in the *Government Gazette*, and call upon any person having objection to any such native becoming a duly qualified elector, to submit such objection in writing, to the Secretary for Native Affairs, for the consideration of the Lieutenant Governor.

4. The Lieutenant Governor may make such rules and orders in and about the publication of any such application, and receiving, and entertaining, and deciding upon, any objection thereto, as may to him seem necessary.

5. The Lieutenant Governor may, at his discretion, grant or refuse to any native applying in manner aforesaid for such certificate, entitling him to be registered as a duly qualified elector, provided always no such certificate shall be granted unless it shall have been published in manner described in Clause 3, at least three months previous to the granting thereof.

6. Every male native who shall have been exempted from the operation of native law, customs, and usages, for a period of seven years, and who shall have obtained a certificate from the Lieutenant Governor entitling such native to be registered as an elector, and who shall be possessed of the immovable property qualification required by any Law in force for the time being in that behalf, shall be entitled to be duly registered as an elector, and, when registered, shall be entitled to vote at the election of a Member of the Legislative Council for such district in which he may possess such property.

7. Every male native to whom such certificate shall have been granted by the Lieutenant Governor so long as he may possess the requisite property qualification, and who shall not be convicted of treason or of any infamous crime, or of any crime which, if committed in England, would be felony, shall, subject to the provisions of Her Majesty's Letters Patent given at Westminster the fifteenth day of July, in the twentieth year of Her Majesty's reign, or any law in force for the time being in that behalf, be entitled to vote at the election of a Member of the Legislative Council for the district in which he may possess such property qualification.

REPORT OF THE ACTING SUPERINTENDENT OF EDUCATION FOR THE YEAR 1871.

Government Schools.

1.—The average attendance at the High School Pietermaritzburg in 1870 was 28, and it remained the same in the first half of 1871; while at Durban the numbers at the High School kept steadily increasing under the reduced fee of 10s. a month. This fact, taken in connection with several applications on the part of parents and others concerned, induced the Lieutenant-Governor to reduce the fee at the High School Pietermaritzburg to the same rate as the fee at Durban, viz., 10s. a month, from the middle of 1871.

2.—The returns of the half year which has passed since the reduction of the fee, show no signs of increase in the attendance; this fact is in a measure attributable to the removal of families to the Diamond Fields.

3.—At the closing of the school for the year, the Lieutenant-Governor distributed the usual annual prizes, and also some extra prizes for elocution offered by Mr. Turnbull member of the Legislative Council for the city.

4.—Both schools continue to be in a satisfactory condition.

5.—At Durban, Mr. Russell has signified his intention of asking for a year's leave of absence in 1872, on the score of his health requiring a change, which the climate and the nature of the work render desirable; in his case, as in that of Mr. Calder at the High School Pietermaritzburg, and of Mr. McLetchie, at present absent on account of ill health from the Government School at Durban, arises one of the difficulties in the way of education in the colony; viz., that of finding any one in so small a community able to take charge of the school during the temporary absence of its master; it is difficult to make provision for these cases, and they can only be dealt with when they arise as circumstances at the time permit.

6.—At the Government School in Pietermaritzburg a slight improvement has taken place during the year in the attendance; in 1870 it had sunk to 79, during the past year it has risen to 85.

7.—The attendance at the Government School at Durban had fallen in 1870 to 69.5, while the cost of the school was £370. The master applied for and obtained leave of absence in March, for a year, on account of ill health; in the face of such numbers it seemed unnecessary to appoint an acting head master, and the assistants Mr. Doig, and Miss McLaren, were left in separate charge of their respective schools; the one having in charge the boys, the other the girls and infants; as a temporary measure, the arrangement seems to have worked fairly. A marked improvement has

taken place in Mr. Doig's school, and Miss McLaren has shown herself equal to her increased charge; as a result, the attendance has arisen from 63 in the first quarter to 79 in the last quarter; of these, about 45 belong to Mr. Doig and 34 to Miss McLaren; in compliance with the general wish of the parents, the two schools are kept as far as possible distinct, whether at work or at play.

8.—The number of Aided Schools in 1871 was 65, with 7 grants to itinerant teachers, held by 8 persons.

The total cost of the schools maintained exclusively and aided by the Government during 1871, was as follows :—

				£	s.	d.
Government aid	3,994	12	6
All private contributions	5,967	12	5
			Total	£9,962	4	11

and the average attendance for the year was 1856 *i.e.*, over 24 for each school, at a cost of 107s. a head.

9.—The following books maps, &c., were issued during the year :—

Books	2,248
Copy Books	1,738
Maps	37
Registers	153
Wall Tablets	48
					—
					4,224
					—

Of these, the following were sold :—

Books	1,267
Copy Books	1,570
					—
					2,837
					—

For which the sum of £44 0s. 8d. has been paid into the Treasury.

10.—The grant for books maps and apparatus used to be the means of supplying the schools with maps and other necessary furniture, and the scholars with their needful books; at present it is not necessary for the Government to keep up this stock for supplying the scholars, as booksellers are ready to keep books and sell them at home prices, provided payment is guaranteed out of the grants in aid of the schools; at present, and for some years the grant has been absorbed in purchasing stock, which was sold again, the proceeds going to the general revenue; relieved of this charge, the grant should be entirely spent where it is required, *viz.* in furnishing schools with maps books and apparatus attached to the school and in charge of the master.

11.—Once more, all important measures for furthering education in the colony have been postponed, awaiting the settlement of other matters at home.

Aided Schools, Pietermaritzburg County.

12.—The Infant School in Pietermaritzburg belonging to the Wesleyan body has lost its mistress during the year ; Miss Howitt had been trained at home, and her school here was a model infant school ; the loss of her services is serious, because, in the presence of the large and increasing demand for teachers in England, it has not been possible to supply Miss Howitt's place by a trained teacher from home. The school at present is under Miss Chatterton, who is discharging her task with zeal and good sense.

13.—Evening School, No. 2, Pietermaritzburg. This grant was held by Mr. Scoones, assistant master of the High School, who resigned it in the middle of the year ; it has been conferred on Mr. De la Mare, who has worked indefatigably in the city, both in a Day and Evening School for some years.

14.—St. Mary's College at Richmond continues to prosper. In the middle of the year Mrs. Longhurst left, and after an interval, Miss Bewsher arrived from England, as principal. Increased accommodation for ten boarders has been made ; the attendant expenses are heavy, the need of such schools for the education of the young women of the colony is felt ; these facts, have induced the Government to propose, and the Council to sanction a grant at the increased rate of £100 for the ensuing year. The last returns show thirty boarders.

15.—As there appeared to be no demand for the common Day School for Girls at Richmond, out of which the present College sprung, the grant has been withdrawn.

16.—The common Day School at Richmond under Mr. Kearsley has increased its numbers, and retains the grant of £36, which was in jeopardy in 1870 ; the possession of the school house, which has been so long in suspense, is at length so far settled that the place at present is *de facto*, if not *de jure*, in the hands of the Government.

17.—The school at Malton, which has been long failing, was closed at the end of the year, without much prospect of revival.

18.—The school at Albert also, a few miles beyond Malton, which was doing good service, as a Day and Boarding School, has been suddenly closed, owing to the departure of the mistress to the Cape.

19.—The difficulty which has been found in maintaining schools for girls in Pietermaritzburg and Durban, has induced the Government, while the present system remains in force, to grant aids to two schools for girls in Pietermaritzburg during the year, and to propose their continuance in the Estimates for 1872.

Aided Schools, Durban County.

20.—The Infant School of the Wesleyan body at Durban passed in the latter half of 1870 into the hands of a young teacher, who had not much experience ; the result has been satisfactory ; Miss James has proved herself a zealous and efficient teacher, and in spite of sickness among the children, the average attendance has risen from 39 in 1870, to 42 in 1871.

21.—Mrs. Millan's School called the Mansion House has maintained its high character. In an exercise in dictation given to several schools by the Acting Superintendent, the best results were from the High School Durban, the next were from Mrs. Millan's, as will be seen from the following statement :—

			Number of the Register.	Number present.	Number of candidates.	Average errors a head.
<i>High School, Durban</i>	40	40	30	1·5
<i>Mansion House School</i>	33	28	13	2·5

results which are much in advance of other schools which tried the exercise.

22.—Pinetown. Mr. Kidd, the able master of the Pinetown School, has resigned, and left his charge at the end of the year. His services were appreciated by the families at Pinetown; and, if the Government had been able to carry out its plan of education, Mr. Kidd would have found a more ample field for his talent as a master. The school-house, which was destroyed by lightning, is in the course of being rebuilt, a vote of £20 having been asked for and granted by the Legislative Council in aid of the repairs.

23.—At Umzinto for some time past there has been a difficulty, owing to the want of a school-house; this difficulty is in the course of being removed, and a good building devoted to school purposes will be shortly finished.

24.—At Umtwalume, the little group of families whose children had formed the school has broken up, and the school was closed early in the year.

25.—In addition to the Day and Evening Schools in Durban, a third Coolie School has been at work this year at the Lower Umkomanzi for the children on the sugar estates in the neighbourhood.

26.—In Durban the Rev. R. Stott has secured the services of a Coolie teacher, who is bringing on the children well. He is especially attentive to making them learn (which they do with ease) a quantity of English phrases in daily use between buyer and seller, master and servant, &c. The room is too small, and sadly needs a little help to get proper furniture.

Mr. Stott selected the Coolie teacher for the school at the Lower Umkomanzi.

27.—It will be noticed that the Coolies seem to be giving up their reluctance to have their girls taught, though their numbers are not at present equal to those of the boys. We have four girls against thirty-four boys in the Durban school, and six to twenty boys at the Lower Umkomanzi.

Aided Schools, Klip River.

28.—Once more, at Ladysmith, the attempt of the Government to assist in forming a school for the use of the farmers in the neighbourhood has failed; and Mr. Newnham's school came to be composed of English children of the village, or of English boarders from distant parts of the colony. The school has been closed, but the colony has not lost Mr. Newnham's services; he has removed to the neighborhood of Pietermaritzburg, a position more easy of access to the numerous families in the colony who are anxious to put their children under his charge.

Aided Schools, Victoria County.

29.—At the beginning of 1871 the Rev. Jas. Boyd resigned the school at Verulam and returned home. The committee selected Mr. England to succeed him. Mr. Boyd had had charge of the school since 1866 and brought it to a high state of efficiency; unfortunately the colony does not present inducements enough to such masters as Mr. Boyd to continue amongst us.

30.—Three schools have been closed in this county: at Mount Moreland, Mrs. Wood has at length had to close the school, owing to the removal of families in the neighborhood. At Rosehill, Miss Galloway had to give up the school on account of her health, and the local support and the grant together have not been sufficient inducement as yet for anyone, not a resident, to re-open the school. At the Little Umhlanga, death has removed the mistress, and no successor on the spot has, as yet, been found; but lower down, at Avoca, the Rev. W. S. W. Blathwayt, who has been favorably known to the Government as master of schools in several places in the colony, opened a school in the latter half of the year which seems prospering.

Aided Schools, Umvoti County.

31.—An Infant and Girls' School has been opened at Greytown in the latter half of the year.

32.—Hermannsburg. A change has taken place in the head-mastership of this school, and the Rev. G. Beer has succeeded the Rev. H. Müller. Being in ill health some years ago, and anxious that the school should be carried on when his services should be lost to it, the Rev. H. Müller pressed on the Society at home the necessity of preparing for the future, by securing the services of an efficient master in his room: as a consequence, Mr. Beer, after finishing his course at Göttingen and remaining six months at the Society's training college, joined the station at Hermannsburg. Meantime, Mr. Müller's health, instead of failing, had been gradually re-established in spite of the increasing charge of the school, which numbered at the close of the year 83 boarders. Mr. Beer came with authority from home to divide the headship of the school with Mr. Müller; but Mr. Müller feeling that it was best for the interest of the school that it should be under one head accepted a call which he had lately received in the Old Colony, and has left us, to the regret of all who knew him and his laborious and useful career among us; especially has he carried with him the affection and regret of the scholars who were under his care.

33.—Two schools in Umvoti County seem likely to be closed in consequence of removals to the Diamond Fields. This is the more to be regretted, because in one case, at Foord's Rest (or Nooitgedacht) the families at considerable expense have just finished a good school and master's house; in the other instance (Welgevonden) there was reason to hope that a school house would have been built shortly; this was a school got together by an Itinerant teacher, Mr. T. H. Sheridan, who succeeded in raising it to the position of a school entitled to receive aid from Government: of a similar kind is the school at Dafel's, where an Itinerant teacher has established a permanent school, and has secured a grant in aid of it for 1872.

Weenen County.

34.—The school at Weenen, which displayed some life under Mr. Harding, appears once more to be dwindling away; this is chiefly owing to the removal of the families in Weenen to the Diamond Fields.

35.—At Kruisfontein the school has, under an Itinerant, acquired sufficient permanency to receive a grant in aid; on the other side of the County, another school at the Little Tugela was closed abruptly by the departure of the mistress for the Diamond Fields: but there are several families there anxious to secure a teacher, and ready to support one, and there is reason to hope the school will be shortly re-opened.

36.—Up to the present time, the effect of the Diamond Fields on the schools receiving grants in the three southern counties of Natal is hardly appreciable. In the northern counties, we have in the Umvoti the school at Foord's Rest likely to be closed in consequence of families moving to the Fields, and perhaps the closing of another school may be partly attributed to the same cause; the school which has suffered mostly directly by removals to the Fields, is the Weenen School.

37.—It is to be noticed, however, that the average attendance in 1871 seems still slightly on the increase, being 1,856 against 1,797 in 1870.

38.—The shifting character of our schools both as regards the masters and the scholars is to be regretted, but it is at present unavoidable.

39.—The schools at Weenen, Ladysmith, Verulam, Pinetown, Hermannsburg, present instances of this changing character of our schools; still more is it the case with the smaller county schools.

which supported by three or four families, do not survive a removal or two and are closed; other schools take their places in the same county, it is true, but the habits of steady work, so necessary for the scholar's progress, are not formed.

40.—Whatever stability it is possible to achieve in our school system, must, it would seem, arise from concentrating our efforts on boarding schools as at Richmond and Hermannsburg: and where parents have confidence in the principals, they seem to have no reluctance to send their boys and girls away from home, but then the risk and expense of buildings suitable for boarding schools prevent individuals who might be able and willing to manage them successfully, from making the attempt, and the task devolves, as in the instances referred to above, on religious societies; but these are just the difficulties which the Government could, by a moderate outlay from year to year, in building central boarding schools in the several counties, gradually overcome.

41.—But this is to look a long way forward, when our progress at present is so slight. In Pietermaritzburg itself we had one building put up by the Government for a primary school, but the necessities of the times diverted it to other uses. The High School lodges in rooms built by the Collegiate Institution, while at Durban the High School is held in a granary, and the primary school is lodged in a building which was never meant for a school, and is at present in a state of advanced decay. Nothing can be more forlorn than the external appearance of these two primary schools, here and at Durban, and their interiors are in keeping with their exteriors; proper furniture is wanting; whenever the Government is at liberty to take up the subject of education, good large airy rooms with proper furniture for the primary schools, here and at Durban, should be among its first objects.

42.—The replies from the schools consulted were not satisfactory enough to induce the Government to commence the Middle-Class Examination this year. It will evidently be necessary for carrying out the scheme, to put a small vote for expenses on the Estimates of the present year.

ACCOUNTS.

All accounts, both public and private, are rendered in this Colony in British money ; and biddings at Land and other Sales by Auction are made also in British money.

WEIGHTS.

Weights of the Imperial Standard were legalised and brought into use in this Colony under the Ordinance No. 11, 1852.

Among the Dutch inhabitants, and in their commerce with the English, weights of the standard of Amsterdam are occasionally used ; the proportion being 92 lbs. Dutch to 100 lbs. English.

MEASURES.

The standard measures in this Colony are the Imperial ; and were legalised by Ordinance No. 11, 1852.

The Dutch Inhabitants, however, in disposing of grain, are in the habit of adhering to the old Dutch standard, viz :—

1 Schepel equal to ·766 old Winchester Bushel, or ·743 Imperial.

1 Muid „ 4 Schepels, or 3·065 old Winchester Bushels, or 2·972 Imperial.

1 Load „ 10 Muids, or 30·65 „ 29·72 „

Thus 107 Dutch Schepels are equal to 82 Winchester Bushels.

4 „ „ about 3 Imperial Bushels.

11 „ „ about 1 Quarter.

The measurement of land in Natal, since it was proclaimed a British Colony, has always been Imperial, viz., by acres, roods, perches, &c.

INFORMATION FOR THE USE OF MILITARY AND NAVAL OFFICERS PROPOSING TO SETTLE IN THE COLONY OF NATAL.

1. In this Colony, Officers purchasing land are allowed a remission of the purchase money, according to the following scale :—

	£
Field Officers of 25 years' service and upwards, in the whole ...	600
Field Officers of 20 years' service and upwards, in the whole ...	500
Field Officers of 15 or less years' service, in the whole ...	400
Captains of 20 years' service and upwards, in the whole ...	400
Captains of 15 years' service or less, in the whole ...	300
Subalterns of 20 years' service and upwards, in the whole...	300
Subalterns of 7 years' service and upwards, in the whole ...	200
Subalterns under 7 years' standing are not entitled to any remission in the purchase of land.	

2. Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of these Regulations ; but Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army, Pursers, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army, and Mates of three years' standing with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

3. In order to take advantage of these privileges, Officers of the Army on full or half-pay should provide themselves with a certificate from the office of the General Commanding-in-Chief, stating their rank and length of service ; and Officers of the Navy should obtain from the Lords Commissioners of the Admiralty a certificate showing that their settlement in a British Colony has been sanctioned, and stating their rank and length of service. No document from the office of the Secretary of State is necessary.

4. This certificate will not on any account be issued to the same Officer more than once, nor to any Officer on half-pay who shall for two years immediately preceding his application have resided in the Colony in which he seeks to make it available.

5. Gentlemen who have ceased to belong to Her Majesty's service will not be allowed advantages in the acquisition of land. This rule, however, is not to affect Officers who, having obtained permission to settle in a British Colony, have quitted the service for the purpose of doing so. But in such cases it will be necessary that their certificate of service and permission should be presented to the Governor of the Colony within one year from that date.

6. As these grants are made with the object of encouraging permanent settlement in the Colonies, Officers will not for the space of two years from the date at which they obtain their land receive a Crown-grant for it, but will in the meantime receive a " Location Ticket." At the ex-

piration of two years, the Officer, on showing to the satisfaction of the Governor that he is *bonâ fide* a resident settler in the Colony, and has so resided continuously since receiving his "Location Ticket," will be entitled to a Crown grant in exchange for it. If, however, application should not be made for the exchange of the "Location Ticket" within twelve months from the expiration of the two years for which it is granted, it will be considered to have lapsed, and the land will be open to sale or grant. In case of the Officer's dying while holding a "Location Ticket," the land to which it refers will be transferred to his legal representative.

7. In case of such death occurring before the "Location Ticket" is obtained, the Governor of the Colony is authorized to make the certificate available in favor of the child, or other nearest representative of the deceased Officer, as he may find advisable.

By Government Notice No. 84, 1871, the following Conditions were added.

Every Naval or Military Officer who may have received a Location Ticket, or other provisional order entitling him, under certain conditions and after a certain lapse of time, to receive a grant of Crown Land in this Colony, will be required before he can receive an absolute grant in exchange for such Location Ticket or other provisional order, to show to the satisfaction of the Lieutenant-Governor, that he has resided on the land in question for not less than six months in each of two consecutive years, or during any twelve months of such two years, and that he has erected on the said land such buildings as at the expiration of that time may be certified by the Surveyor-General of the Colony to be suitable for residence and for farm purposes, according to the agricultural character of the particular portion of the colony in which such land may be situated, and that during such two years he has actually cultivated or stocked such land in such manner as may be certified by the Surveyor-General of the Colony to show a *bonâ fide* intention on his part to continue in the beneficial occupation thereof, or to have imparted to it an enhanced saleable value.

Conditions on which Grants and Leases of Crown Lands are made to Immigrants into this Colony as published by Government Notice No. 22, 1869.

A settler with £500 capital, or an annuitant of £50 a year, will receive a Land Order for 200 acres, with a 400 acre reserve.

A settler with £250 capital will receive a Land Order for 100 acres, with 200 acres reserve.

A settler with £100 capital will receive a Land Order for 50 acres, with 100 acres reserve.

The reserves will be purchasable at 5s. an acre at any time within the first five years.

Coast lands, but without any reserve, will be allotted at the rate of one-half the above Land Orders to the three classes of capitalists.

A settler with a competent knowledge of farming, and means to support himself and his family till he can raise his crop, will receive a Land Order for 50 acres, to which a reserved commonage will be attached, in localities where this is practicable.

Grants for the respective Land Orders will not be issued till after two years, and then only on proof of continuous occupation of the land during eight months of each year.

Assistance, not exceeding £10 per statute adult, will be given to all settlers selected and sent out by the Emigration Agent.

Pasturage Licenses will be issued for Land in Class A, terminable at the end of each year.

Applicants for Leases of Pasturage Lands in Class B, before 1st January, 1873, will be allowed a pre-emption over their runs at 5s. an acre, but will not be allowed to purchase less than the whole run.

Immigrants are allowed a period of 12 months after their arrival in the Colony for the selection of their lands, provided they do not quit the Colony during this period without the sanction of the Lieutenant-Governor.

RENTAL OF PASTORAL LANDS.—Immigrants possessed of adequate knowledge and means will be allowed to hire 1,000 acres of Crown Lands, suited for pastoral occupation, at a yearly rental of 1d. per acre. The lands thus let will be distributed into two classes; of which one, Class A, will be nearer to townships or settlements; and the other, Class B, more remote.

Class A will be let on an annual license, renewable at the pleasure of the Colonial Government from year to year.

Class B will be let on a lease for eight years, and both classes are subject to the conditions of actual occupation and stocking,* and the rent is to be paid each year in advance.

The above regulations apply to Immigrants coming to Natal provided with Land Orders from Dr. Mann, Emigration Agent in England, and also from the Cape Colony, with Land Orders from any of the Agents there; but British subjects who may arrive from any country in which there is no Emigration Agent for this Colony, will likewise be entitled to the same privileges as those who are possessed of Land Orders, provided they comply with the foregoing established regulations, and apply for their Grants within a period of three months from their arrival in the Colony.†

* NOTE.—The stocking referred to will be one sheep for every five acres, or one horned beast for every twenty-five acres.

† NOTE.—Referring to the last paragraph, the Emigration Agency in England has been transferred to Her Majesty's Colonial Land and Emigration Commissioners, who have been empowered to issue Land Orders to Emigrants proceeding from the United Kingdom of Great Britain and Ireland to this Colony. The Emigration Agencies in the Cape Colony have been abolished.
